### leo™ CONTINUES TO ROLL OUT GREAT PRODUCTS

leo™ is pleased to add even more pre-paid products to their portfolio, which meets the needs of our clients. These products are designed to give clients the benefits of post-paid products without the inconvenience of contracts, red tape and credit checks. New to the stable are the leo20 and leo10 products. These two join the leo50 and leo business lite packages, which were launched a couple of months ago.

Speaking in Windhoek at the launch of these products, Stanley Similo, Chief HR, Corporate & Regulatory Affairs Officer said: "At leo™ we are proud to continuously offer our clients workable solutions to their mobile challenges. Not all of our clients want to or can afford to sign up a 12 or 24 month contract, in order to enjoy monthly bundle benefits. It is with this in mind that our technical team have created another two options in the leo™ group of pre-paid products. The leo20 and leo10 packages offer the freedom of enjoying our bundled offerings without being bound to a contract.

"Get plenty for your twenty" leo20 product offers 20 minutes, 20 sms' (both to all local networks), 20 MB's of data, free nights and weekends for only N\$20,00 (excluding VAT).

leo10 also bridges the gap for clients wanting to recharge with a minimum amount – the package offers 10 minutes, 10 sms' (both to all local networks), 10 MB's of data, free nights and weekends for only N\$10,00 (excluding VAT).

leo™ will continue to listen to our clients and roll out products and packages that suit their lifestyle and budget. The pre-paid bundles have proven to be highly popular and the uptake has exceeded expectations.

Similo concluded: "Clients now have the freedom to choose from a wide selection of bundles whether it be pre-or post-paid. Our wide selection of affordable handsets continues to impress customers and again we listen to what our customers are asking for – whether it be simple handsets or smartphone options".

There are 11 leo shops and more than 2 000 distributors throughout Namibia, where customers can recharge their airtime and purchase our great-offer telephones. Our 24 hour Call Centre Operators are also waiting for your call on 085 120.
